Stop this litigation NOW!!!

The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial?

The real crisis in Michigan is the failure of corporations to take responsibility for their bad actions and the willingness of big business and certain conservative republican judges to blame the victims of corporate misconduct instead of holding the corporations accountable.

Would you feel as sympathetic to these corporations if you or your loved one were diagnosed with this dreaded disease?

How would you feel if the ceiling of the courthouse fell, dispersing a cloud of asbestos laden dust on your bench?

Let the working people of Michigan have their day in court like the constitution allows for, and don't succumb to the pressures of big business and law firms like Dickinson Wright!!!

Sincerely,
Walter P. Schultz,
Michigan asbestos victim
